Dear Addison:-

I have not had the pleasure of receiving a line from you so long, and thinking of you today I just drop these few lines to inquire how you are getting along ?

I am thinking about placing a Boat on the run to Tampa and if I do I may see you. Times are hard, and now People here are beginning to appreciate what I have done the past 4 years, and it now looks as if we will have Socialism, this pinching the Belly has done what nothing else could do.

With kind regards to you both

I am always.

Yours

George.
